  - 392 Symposium on toxicology of respiratory particles
  - 392 Expanding the opportunities for services and jobs for older people under CETA
  - 392 Federal Register briefs
  - 394 Education notes
  - 394 Publications
- PHR bookshelf (cover 3)

Cover: Questions about medical care at home are explored in the first two papers in this issue. The authors deal with such questions as when is a house call necessary for psychological reasons? Are house calls technologically obsolete? What kinds of patients are best cared for at home? What is the cost effectiveness of home health care in relation to hospital admission, early hospital discharge, and extended care?
